

## Solar with a Purpose: Innovation, Education, Generation

Join Arizona Western College in a groundbreaking ceremony for an innovative 5 MW Solar Array to be completed Fall 2011.

This first-of-its-kind array is a landmark project for AWC, Yuma, and Arizona.

This project made possible by

**Tuesday, May 24, 2011**

**Location:** Arizona Western College  
2020 S Ave 8E  
24th Street Entrance  
P1 Parking lot  
Yuma, AZ  
[Link to campus map.](#)

**7:45 AM Media Registration**

**8:15 AM Ceremony**  
Dr. Glenn Mayle,  
AWC  
Bruce Mercy,  
PPA Partners  
Julie Engel,  
Greater Yuma Economic  
Development Corporation  
Andrea Berezna,  
APS  
Jonathan W. Postal,  
Main Street Power

**8:45 AM Breakfast Reception with technology demonstration**  
Schoening Conference  
Center, 3C

**Morgan Stanley**

This 5 MW array will generate virtually 100% of the college's daytime electricity needs and will serve as a world-class research and testing site for government and corporate application. Workforce training and educational opportunities for students from elementary through university will enhance our community and support ongoing economic development.
